Com o objectivo de contribuir para o renascimento da arte do Mosaico Hidráulico, que após o seu esplendor no início do século XX caiu num profundo esquecimento, procurámos durante mais de um ano artesãos que ainda mantivessem as tradicionais técnicas de fabrico do Mosaico Hidráulico, que tanto pertencem à nossa cultura e história.

Na KOKLATT MOSAICO, fornecemos apenas os verdadeiros mosaicos hidráulicos, fabricados com o total respeito pelas técnicas tradicionais e que se mantêm desde a sua invenção há mais de cem anos.

As grandes qualidades do artesanal Mosaico Hidráulico enquanto revestimento para pavimentos, pode sem dúvida ser comprovada pela quantidade de exemplos cheios de história que encontramos espalhados pelo nosso país: entradas de prédios, antigas lojas de bairro, cozinhas e casas de banho de velhos apartamentos que resistiram ao tempo e esquecimento, mas que nem por isso perderam a sua beleza e qualidade.

O nosso Mosaico, é produzido artesanalmente no Alentejo mantendo as técnicas tradicionais de fabrico. Os padrões, são desenhados despejando manualmente num molde a pasta de pó de pedra e pigmentos naturais, apresentando as variações ligeiras nos tons e manchas heterogéneas características deste material. Já a secagem, é feita ao ar livre, de forma natural.

O verdadeiro Mosaico Hidráulico é um material que envelhece, ganhando a patina que o caracteriza, ficando gradualmente cada vez mais bonito e resistente.
